How to Disable facebook notification in google chrome This video show how to stop facebook and google notification show in bottom to the Taskbar on google chrome.

1. disable google chrome notifications
2. disable google chrome notifications android
3. google chrome disable notifications group policy

It’s a good idea to take one step further and make sure Chrome doesn’t try to sneak any notifications past you anyway, which can happen, thanks to Chrome’s frequent experimentation and updates.

disable google chrome notifications
